

Tiered Huddles

Huddle Action Items

1. What type of action items would you develop for:

A unit with a CAUTI standardized infection rate (SIR) of 1.35?

A patient with a serious CAUTI?

A unit with excessive catheter days for urinary catheters?

2. What is the right amount of time to follow up for each of these action items?

A unit with a CAUTI standardized infection rate (SIR) of 1.35?

A patient with a serious CAUTI?

A unit with excessive catheter days for urinary catheters?
